Hint: One aspect of the project that the judges highlight as being noteworthy are: Was the job challenging?

Key session takeaways:

- Federal Cybersecurity Requirements for Construction Trades (CMMC, SPRS, FISMA)
- How to protect against Ransomware

Disabled Veterans face incredible obstacles as they struggle to find a new identity in civilian life. Having been part of a supportive team of brothers and sisters while on active duty, disabled veterans often find themselves with limited support or even alone to face their new reality in a civilian world that they no longer feel connected with.

According to the Department of Veterans Affairs an average of 20 Veterans take their own life every day. In answer to this alarming statistic and to honor the brave men and women who selflessly volunteered to serve our great nation, in 2017 Challenge Alaska joined the movement and formed Alaska Warriors Hockey, specifically to serve disabled Veterans living in the Last Frontier.

Download the CLC's 2022 Coloring Book!

Thank you to all of our members who sponsored a page in the 2022 CLC coloring book! [Download the digital book here](#) to share with the young artists you know! Physical books are now available in the Anchorage and Fairbanks offices. Part of the CLC's mission is to cultivate the future leaders of Alaska's construction industry, and producing the annual coloring book is one of the ways we introduce kids to careers in the construction industry at an early age. The funds generated from this project allow the CLC to provide relevant speakers for professional development and industry networking events for CLC & AGC members.
