<b>Types of work your organization is involved in:</b>	STG Incorporated is a specialty remote Alaska construction company with the following core services: Bulk Fuel System Installation, Pile Foundation Installation, Waterfront & Erosion Mitigation, Civil Construction, Microgrids, Communication Tower Construction, Crane Services, Bridges and Elevated Walkways, Wind Turbine Installation, Specialty Logistics
<b>Personal work experience:</b>	Brennan has over 20 years of experience working in Western Alaska making challenging infrastructure projects a reality for many rural communities. He has a background in civil engineering from the University of Nevada Reno and has built his career working in the construction industry. He started working at STG when he was still in college as a yard hand and has served many roles since moving into his current position as President in 2016. As President of STG and Alaska Crane, Brennan works diligently to enable his team with the tools to deliver excellent craftsmanship, pursue innovation, embrace collaboration, and ensure everyone gets home safe.
<b>Other construction industry activities:</b>	Through STG, Brennan takes great pleasure in sponsoring and supporting both the Calista College Intern program, as well as the Excel Alaska intern program. Over the years he has been involved with the Yukon-Kuskokwim Workforce group and has participated with the advisory board for both the UAA Welding program, and the AGC of America Project Manager Course. Additionally, Brennan supports the Adopt-A-Highway initiative encouraging STG and Alaska Crane employees to participate in this community cleanup at least 3 times per year. Brennan also participates in many of the AGC sponsored events throughout the year.
